

Data Analyst Job Discovery Report

Candidate: Rudra Pratap Singh | B.Tech CSE, Kanpur | Fresher | UP, India | June 2026

Top Job Opportunities — Ranked by Profile Fit

Jobs filtered for: **Data Analyst** | Remote & Hybrid | Entry-Level / Fresher | India | Posted within last 6 months

#	Company & Role	Location	Posted	CTC	Match %	Why it Fits
1	Shell India Data Science Analyst	Chennai / Bengaluru (Hybrid)	Jan 2026	8–12 LPA	82%	EDA, Python, Power BI, SQL — exact match. Global MNC with structured early-careers program.
2	Daice Labs Data Analyst (Remote)	Pan-India (Remote)	Jun 2026	4–7 LPA	85%	SQL + Python + dashboards. AI research firm. Remote-first. Freshers considered.
3	Vamstar Entry Data Analyst	Pan-India (Remote)	Apr–May 2026	4 LPA	78%	Fully remote, fresher-friendly. Excel + data validation + research. Healthcare analytics exposure.
4	GreedyGame Data Analyst (Hybrid)	Bengaluru (Hybrid)	Jun 2026	5–8 LPA	75%	Python, SQL, KPI dashboards. Ad-tech. Ownership from Day 1. Learning stipend provided.
5	The Nexora Group Data Analyst (AI/ML Focus)	Pan-India (Remote)	Jun 2026	4–6 LPA	72%	Python, SQL, EDA, NLP basics — emerging AI firm. Profile aligns well, Python skills tested.
6	Concentrix Business Analyst (Fresher)	Bengaluru (Hybrid)	May 2026	4–4.8 LPA	68%	MNC. Excel + data ops. Good for early experience; stepping stone to pure analyst roles.
7	TELUS Digital AI Online Data Analyst (Freelance/WFH)	Pan-India (Remote)	Jun 2026	Variable	65%	Fully remote, flexible. Map data evaluation + research. Good side-income / portfolio builder.

Most Commonly Required Skills Across Job Postings

SQL	Python (Pandas/Numpy)	Excel / Google Sheets
95% of JDs	90%	88%

Power BI / Tableau	EDA & Data Cleaning	Statistics
85%	82%	75%
Communication	Machine Learning Basics	Cloud (AWS/GCP)
70%	45%	30%

■ Your Skill Match vs Market Demand

SQL (Joins, Subqueries, Aggregations)		95%
Python (Pandas, NumPy, EDA)		90%
Excel / Google Sheets (Pivot, Slicers)		88%
Power BI / Tableau (Dashboards)		85%
Data Cleaning & Preprocessing		82%
Statistics & Trend Analysis		75%
Communication & Storytelling		70%
Machine Learning Basics		45%
Cloud Platforms (AWS / GCP / Azure)		20%
Tableau (Advanced / Certified)		40%

■ Skill Gap Analysis

Skill Gap	Priority	Action
Power BI / Tableau Certification	MEDIUM	Google / Microsoft DA Cert adds credibility to your profile.
Cloud Platforms (AWS/GCP)	HIGH	90% of enterprise roles now require at least S3/BigQuery basics.
Advanced Python (ML, Scikit-learn)	MEDIUM	Many JDs ask for exposure to regression/classification models.
Git & Version Control	LOW	Mention GitHub in your resume — you already use it for projects.
Communication / Presentation Skills	LOW	Add a 'Key Achievements' slide deck to your GitHub portfolio.

■ Market Demand Insights — India Data Analyst (June 2026)

430+	Entry-level Data Analyst openings on LinkedIn India right now
57+	Fresher-specific openings on Internshala (June 2026)
5,000+	Remote DA jobs available across India on LinkedIn
Top skills	SQL, Python, Excel, Power BI — appear in 90%+ of JDs
Avg CTC (Fresher)	3–6 LPA (startup) 6–12 LPA (MNC like Shell/Concentrix)
Hottest sectors	Healthcare Analytics, FinTech, E-commerce, AI/ML firms

■ Recommendations to Improve Interview Chances

No.	Action	Detail
1	Add Power BI to Projects	Screenshot your dashboards, add a live GitHub README with images. Recruiters skim GitHub first.
2	Start a Google DA Certificate	Google's DA cert (Coursera, ~3 months) is free/cheap and widely recognized. Boosts ATS score.
3	List GitHub on Resume	Your 3 Excel projects are strong. Ensure README files are clean and screenshots are visible.
4	Upskill Cloud Basics	AWS S3 + Glue or GCP BigQuery free tier — 2-week self-learning closes the biggest gap.
5	Apply Shell R194405-2 First	Best-fit MNC role. Uses your EDA, Python & Power BI skills directly. Apply within this week.
6	Target Remote Startups	Daice Labs & Nexora Group are actively hiring freshers remotely — apply in parallel with MNC apps.
7	Build LinkedIn Profile	Sync resume, add project screenshots, get 3+ recommendations from faculty/peers.

■ Overall Fit Assessment

Assessment Area	Score	Insight
Core Technical Skills	88/100	Python, SQL, Excel, EDA — strong match with most JDs.
Visualization Tools	80/100	Excel dashboards proven; add Power BI / Tableau to resume.
Project Portfolio	82/100	3 real projects on GitHub with clear KPIs. Excellent for a fresher.
Certifications	70/100	3 certs (IBM, Simplilearn, Codecademy) — decent but add Google DA Cert.

Salary Expectation (6-8L)	55/100	Achievable at MNCs (Shell, Concentrix). Startups may offer 4–6L initially.
Work Mode Fit	90/100	Remote/hybrid roles are abundant in India data market.
Overall Readiness	78/100	Strong fresher profile. 2–3 targeted improvements = top 10% applicant.

Verdict: Rudra's profile is **above average for a fresher** in the India data analyst market. 3 real projects, 3 certifications, and a B.Tech CSE background put him in a strong position. The primary gap is the salary expectation of 6–8 LPA — achievable at MNCs like Shell, but startups will likely start at 4–6 LPA. Bridging the cloud and advanced ML gaps over the next 3 months can push him into the top applicant tier.
